11. Bonheur JL, Laev H, Vorwerk C, Karpiak SE (1994) Traumatic injury of spinal cord cells in vitro reduced by GM1 ganglioside. *Restorative Neurology and Neuroscience*. 6: 127-133.

12. Laev H, Mahadik SP, Bonheur JL, Hernandez N, Karpiak SE (1993) GM1 ganglioside reduces glutamate toxicity in cortical cells: lowered LDH release and preserved membrane integrity. *Molecular and Chemical Neuropathology*. 20: 229-243.
13. Bonheur JL, Laev H, Vorwerk C, Karpiak SE (1993) Traumatic injury of spinal cord cells reduced by GM1 ganglioside. *Abstracts of the Society for Neuroscience*. 19: 766.
14. Vorwerk C, Laev H, Bonheur J, Karpiak SE (1992) GM1 treatment protects mouse spinal cord neurons exposed to glutamate: LDH release reduced and GM1 membrane surface distribution maintained. *Abstracts of the Society for Neuroscience*. 18: 177.
15. Laev H, Karpiak SE, Bonheur J, Mahadik SP (1992) GM1 treatment protects membrane integrity and reduced LDH release from neurons exposed to glutamate: GM1 membrane surface distribution maintained. *Abstracts of the Society for Neuroscience*. 18, 1255.
16. MacDonnall J, Stadlin A, Suchday S, Laev H, Hernandez N, Bonheur J, Mahadik SP, Karpiak SE (1991) Cocaine induced hypoxia in utero results in CNS "at risk" for injury: GM1 reduces postnatal dysfunctions and increased vulnerability to CNS damage. *Abstracts of the Society for Neuroscience*. 17: 1279.
17. Laev H, Williams B, Bonheur J, Karpiak SE, Mahadik SP (1991) Topographical exposure of endogenous GM1 after glutamate toxicity and exogenous GM1 protective effects. *Abstracts of the Society for Neuroscience*. 17: 787.
18. Schachter EN, Zuskin E, Goswami S, Celikoglu F, Bonheur JL, Maayani S, Maron Z (1990) Erythromycin inhibits airway smooth muscle response to carbachol. *American Review of Respiratory Disease*. 141: A839.
